Individual_Blog_ADAM

Week 7

- Conducted first meeting on Monday in the Lab with my assignment partner. Read the spec individually and discussed a timeline on how to finish this assignment. Decided to finish Task 1 by Monday week 8

- Completed task1a, part of b, d

- Did not get to complete task 1 by week 8

Week 8

- Finished Task 1 by Wednesday. worked on potions and buildables refactoring for part f

- Started on Task2a.

  - Came up with a design and discussed it with Vinson. Design was approved and I got to implementing while Vinson wrote up some tests.

Week 9

- Finished Task2a and merged it into master on Tuesday. All tests passing

- Realised issues with tests and implementation of task 2a. Therefore I changed some of the code to match the spec and merged changes

- Finished Sun Stone and More Buildables on Thursday and wrote up the blog post for the task.

- Finished Task 3 on Thursday and am ready to submit it once Vinson is done logic switches
